

Dear Dr. Pat Holliday, Since the year 2004 . . . I was struggling with MPD. I searched for help at my home church and other ministries, but they had no idea how to help me and some gave me false counsels ("integrating alters into my personality"). I thought that I must stay in this situation til the end of my life, but our Lord has another plan.

Some month ago the Lord lead me to your ministry homepage and in your newsletters I found a conformation that "alters" are demons. Through your teaching God begin to give me a revelation about MPD on the spiritual level I purchased yesterday your E-book Deliverance from Schizophrenia and MPD" and as soon I downloaded it on my memory stick the demons inside of me start to attack my whole body with heat and cold shocks, trembling unclean words and growling inside my mind. Through the grace of God I got to my house, start the praise and worship music and began under the direction of the Holy Spirit to cast out all different, type of alters/demons that you mentioned in your book. With choking, after the deliverance prayer the demons left my mind and I give all praise, honor and glory to Jesus for his grace to shut this door of my life go begin a new season with me. God bless you and your ministry and as you say on your homepage God leads the persons to you that you can help them through your Holy Spirit-inspired teachings. G R Germany

Deliverance/Schizophrenia/MPD/SRA and Your Higher Self Diabolic Attacks on Minds

Dr. Pat Holliday, Ph.D., releases a new controversial book, Deliverance SCHIZOPHRENIA - DOUBLE MINDED MPD/SRA. The book describes those who are classified as Schizophrenics in need of spiritual deliverance. These hostile spiritual experiences seem impossible but are true testimonies as told to Dr. Pat Holliday, Ph.D. You will be amazed.

<http://patholliday.com/dlguard/cart/index.php?action=desc&pn=78&c=30&page=2>

Dr. Holliday's book concerns the hypotheses that schizophrenia can also be treated as a spiritual problem. She gives another viewpoint concerning the problem of Schizophrenic Double Minded people. She has been in the deliverance ministry for 33 years. She says, "The western world is moving toward a mystical viewpoint. Outlandish views are now considered normal. It's a self induced method. People want to experience God by going through alternate state of consciousness through meditation. One empties the mind through repetition by using a mantra which means to be liberated from thought. You repeat the same word like a mantra and through breathing exercises, you slip into the alternate state of consciousness. This alternate state of consciousness is where you meet your higher self. It is in this mystical state that you will meet yourself as a god! New Agers will say that you have made a quantum leap into your godhood. Millions have adopted this concept that they are gods!"

The Church has the answers through the deliverance ministry and the teaching of Christian character. However, the Church of Jesus Christ must have spiritual eyes to discern the spirits involved in a person's life. Ministers must ask the Lord to let them see which spirit is operating. Is schizophrenia a devil? Is the human spirit controlling the person's flesh? Is it an emotional spirit controlling the nervous system? Is it a mental spirit in control? Is the Spirit of the Holy Spirit in control or is it a religious spirit of the Devil?

MINISTRY EXPERIENCES SCHIZOPHRENIA

The Author went to pray a person in the state mental institution. A woman came over to her as she was walking down the hallway.

"You're Pat Holliday." I asked her how she knew me. She said that she had attended a meeting that I was speaking.

"Are you a Christian, I asked her?"

"Yes ," replied.

"Why are you here?"

She told me that a voice started talking to her mind. The voice told her that he was the Holy Spirit. She started following that voice and doing everything that it told her to do. One day, she walking and the voice told her to step in front of a car. "I am ready for you to come home."

She stepped in front of the car and her relatives put her in the state mental hospital. I asked her if she wanted me to pray for her freedom. She said that she wants me to pray. I called the evil spirit out of her, right there in the hallway. She was instantly freed from the evil spirit.

Another woman Janet came to our prayer meeting. As soon as I touched to pray for her, another personality appeared. "Who are you?" a deeper voice from her normal sound said. "I'm Dr. Holliday, and who are you?" I replied. She gave a different name, Alice. This personality did not seem to know the other personality that came to the prayer meeting with a Bible in hand. Her countenance totally changes to an expression of disgust, she said, "Look at me. I would not be caught dead, dressed like this." She put her hands on her hips. "Where am I? Give me a drink . . . I want a drink," voice sounding very irritated.

I ministered to her and I cast the demonic spirit out and this woman became healed. Her family was amazed at the change because she had been under psychiatric treatment since childhood. She became a very strong Christian and is still living for Jesus.

A man came to our meeting. He gave his name as, let's say, John. One day, I was talking about John to another friend. She told me that he sounded like a person that she knew. However, the person that she knew had a different name. She came to the meeting and sure enough, John was the one that she knew. He was living a double life!

This writer could tell many more stories, however, you should get the point.

Pat Holliday, Ph.D. says, "The effect of this book is explosive, completely destroying the mind set that schizophrenia should be treated in a one dimensional, mentally unstable person as a mental problem. She believes spiritual counseling and healing should be included in treatment. Is it a physical, mental or a spiritual problem? The answer is yes, yes, yes!" Can the lives of individuals with serious mental illnesses, and the achievements of those living with schizophrenia or bipolar disorders battle tremendous odds to improve their own lives?

Dr. Holliday, is not an expert on psychiatry and in no way wants to disparage the medical field concerning this problem. This is not a book rant and rage against the medical field concerning psychological and psychiatric technologies or medications, such as, Tom Cruise' appearance on the "Today Show." It should have been a typical interview to promote Tom Cruise's' new movie, "War of the Worlds." Instead, Cruise' comments on the "Today Show" during an interview with host Matt Lauer on June 24th became known as a 'rant' against psychiatric medication. Although Cruise is not an expert on psychiatry, his popularity as an actor gave his remarks widespread public attention, and,

consequently, more than usual potential for a wide spread misinformation.

Thus began the 'rant,' as Cruise emotionally denied the existence of chemical imbalances and disparaged the use of drug therapies. "All it does is mask the problem there is no such thing as a chemical imbalance," Cruise said. He went on to reject the legitimacy of psychiatric medication, claiming that vitamins and exercise alone can solve problems of mental illnesses, such as postpartum depression.

Dr. Holliday believes that the Christian Church has the answers through the deliverance ministry and the teaching of Christian character. However, the Christian must have spiritual eyes to discern the spirits involved in a person's life. Ministers must ask the Lord to let them see which spirit is operating. Is it a devil? Is the human spirit controlling the person's flesh? Is it an emotional spirit controlling the nervous system? Is it a mental spirit in control? Is it brain damage? Is the Spirit of the Holy Spirit in control or is it a religious spirit of the Devil?

Some Schizophrenics are developed by mind controllers or mind handlers. Dr. Holliday says, "Years ago, a young lady (I'll call her Nancy) twenty-five years old came to our ministry. She was a practicing witch, killing animals in her kitchen sink to worship Satan. Nancy was in dystopian physical, mental and spiritual shape when we first met her. Her story was that both her mother and father had sexually abused her since age two. Nancy's father was a "Christian minister."

The above information that she talked about agrees with some of the information that I am going to share with you.

When she was four years old, she hid in terror under her bed from her father. She was crying when suddenly, she heard a voice say. "Why are you crying, little girl?"

"I'm crying because no one loves me."

"We love you."

"Who are you?"

Then these demons appeared to her. They appeared in the form of her little pink stuffed animals! Actually these stuffed toy animals were demons. They became her spirit guides and gained total control of her mind and life. These demons led her life into deep rebellion and witchcraft. She was also a victim of sexual abuse and her mind control handlers were her parents. After her salvation and deliverance, Nancy became a dedicated Christian. She returned to school and is working as a nurse in an AIDS Clinic, leading people to Jesus!

After discovering the reality of mind-control programming, the author believes that Nancy is a product of a mind control handler which turned out to be her father. These people are also known as programmers. They function exactly like a person who is operating a computer. The computer has been programmed inserted by the manufacturer but then the owner can insert new programs and files. These files can be called up when the programmer calls them up. They simply open the file and then the information that has been placed into the file appears. The computer operator can manipulate the computer's mind! They can close the file, open the file or throw it away. The file stays on the computer as long as the operator wants it to remain there.

To the mind control handler, the victim's mind is their computer. They turn the victim's mind on through trauma. The way it works is the mind control handler creates a trauma and then places the spirit of fear as a gatekeeper in the victim's mind. The gatekeeper, fear, shatters the mind, breaking the mind into fragments creating the schizophrenic mind. This shattered mind can be manipulated because the original owner and controller, the victim, have lost their mind and a new

controller can manipulate their mind and reprogram it.

Then various spirit personalities are layered into newly created avenues that are fashioned in the subconscious mind. For instance, these demons could become personalities such as, a Christian personality; or a murdering personality; or an intellectual personality, etc. These personalities may not know each other. It's like living in a city and though there are many streets and avenues, you may not know their location or their names but they are there!

The controller or handler hypnotizes the person and places various **demons** into the victim's mind. Like the computer, the mind controller inserts codes into each new demonic personality to call them up and to instruct them to do certain things. The purpose of the handler is to create new personalities of a mind-controlled slave. Mind-control programming is a system that different personalities or also called personality parts named alters (demons) can be created and layered into the subjects' mind. Deliverance ministers call these alters demons. These alters (demons) who do not know each other can take control of the body at different times. The handler will build blackout walls that separate these demonically created personalities.

Many handlers are simply people who usually live a double life. They do work their demonic powers over their children through the use of sexual, verbal and physical abuse. This of course, causes great trauma and fear over the children.

Today, we are seeing controllers and handlers being used in our government, businesses, churches, schools and universities, movies, television, music and entertainment. They work in concert to turn masses of people from Jesus to the Devil.

Dr. Holliday says, "Schizophrenic ~ Double-Minded has a psychological, spiritual, emotional and cognitive impact upon the mind. Psychiatrists and Psychologists see it as a mental disorder. Deliverance ministers see it as a spiritual disorder that needs to be resolved through deliverance of demons. It can come in from spiritual family generational curses, demons, drugs, and physical injuries. The Bible agrees that a person that has a split mind is mentally ill. " (Jam. 1:8), "A double minded man is unstable in all his ways."

Dr. Holliday says, "Looking at the mind from a viewpoint that its problems can also be spiritual than merely a mental problem, will give a person a chance of recovery if the problem is demonic. However, she accepts the reality that the cause can be physical and spiritual. "To put it simply, a person has circuits in the brain that simply are not working. These circuits tell what's right and what's wrong. They show a person what's real and what's not real. The Schizophrenic lives in a world of fantasy. The person is double minded and inconstant and exists in a world of illusion. They hear voices on the inside of their head."

Dr. Holliday asks, "WHO are these voices? Do they come from their thoughts? Do they come from their internal storage of memories? Do they come from implanted memories by mind controllers? Do they come from a split mind that simply continues to be able think and speak? Are they coming from the supernatural realm? Do they come from a demonic invasion of the mind?"

The Bible shows that demons are spirit beings. The demon's primary objective is to rob, kill, and destroy causing loss of peace and harmony. (Jn. 10:10), "The thief cometh not, but for to steal, and to kill, and to destroy: I am come that they might have life, and that they might have it more

abundantly.”

Dr. Pat Holliday was called into the Christian ministry in 1975. She received a supernatural anointing in Israel in a Katheryn Khulman meeting. God began to bring people to her meetings that needed miracles and deliverance from demons. Dr. Holliday has seen many of the toughest cases set free from occult-psychological bondages. She been in the ministry for thirty years and traveling internationally. She has never looked for people involved in the occult they found her.

The author, Pat Holliday, Ph.D. can also be reached at Miracle Outreach Ministries
